

Terms and Conditions of Occupational Health and Safety, Fire Protection and Environmental Protection

These terms and conditions of Occupational Health and Safety, Fire Protection and Environmental Protection are applied by TAPI Czech Industries s.r.o., with registered office at Ostravská 305/29, Komárov, 747 70 Opava, Company ID 19977981, registered in the Commercial Register maintained by the Regional Court in Ostrava, Section C, File 95910.

Effective as of 1 November 2024

- 1. These terms and conditions are the terms and conditions applied by TAPI Czech Industries s.r.o., with the registered office at Ostravská 305/29, Komárov, 747 70 Opava, Czech Republic, Business ID No.: 19977981, entered in the Commercial Register maintained by the Regional Court in Ostrava, file no. C 95910 (hereinafter referred to as "TAPI").
- 2. The purpose of these Terms and Conditions is to regulate the obligations of the Partner or their authorized and/or designated persons performing activities or working for the Partner (hereinafter referred to as "Persons Performing Activities for the Partner") at TAPI's workplaces (hereinafter referred to as "TAPI Workplaces") to ensure occupational health and safety, These conditions apply to all work and activities of the Partner at TAPI's workplaces, except for work for which work contracts or purchase contracts are concluded with installation at TAPI's workplaces.
- 3. The terms and conditions for occupational health and safety, fire protection and environmental protection supplement the content of the contract with the Partner. Deviating provisions provided in the contract shall prevail over the wording of the terms and conditions.
- 4. If the nature of the Partner's performance implies that the performance, activities or other obligations set out in these Conditions do not relate to the subject matter of the Partner's business, the relevant provisions of these terms and conditions shall not apply to the Partner's performance, either.
- 5. The Partner commits to comply with all generally binding legal regulations and internal regulations of TAPI, which they have been acquainted with in a documented manner, and which are related to the performance of the Partner's activities or work at TAPI workplaces, in particular, to comply with the regulations on occupational safety, fire protection, GMP, etc. The obligation of documented acquaintance with all required regulations shall be deemed fulfilled by submitting a written record of the handing over of the TAPI Internal Regulations to at least one of the persons responsible to act for and on behalf of the Partner in contractual matters, who shall acknowledge that the regulations have been accepted by them. The internal regulations shall then be binding on the Partner upon expiry of a reasonable period of time necessary for the persons carrying out activities for the Partner to become familiar with the internal regulations.
- 6. TAPI and the Partner oblige to ensure that the activities and work of their employees or any persons carrying out activities for TAPI or the Partner are organised, coordinated and carried out in such a way that the other party's employees, employees of other employers operating on TAPI sites or other individuals on TAPI sites are protected.
 - The work of TAPI employees shall be organised and coordinated by the relevant senior TAPI staff. The work of persons carrying out activities for the Partner shall be organised and coordinated by the relevant senior staff of the Partner.
- 7. TAPI and the Partner's senior staff are committed to working together to ensure occupational health and safety for all employees and individuals in the workplace.
- 8. TAPI and the Partner agree that, when TAPI employees and persons performing activities for the Partner are carrying out their tasks at the same workplace, TAPI is responsible for coordinating the implementation of health and safety measures and procedures for all employees. The relevant senior TAPI staff members are designated to carry out this coordination.
- 9. The Partner commits to cooperate with TAPI for the purpose of coordination under these Terms and Conditions and to ensure that measures to protect the health and safety of persons performing activities

for the Partner are implemented in the manner and within the timeframes specified by the relevant TAPI senior staff.

- 10. TAPI and the Partner oblige to inform each other in writing of the risks and measures taken to protect against their effects relating to occupational health and safety, fire protection and environmental protection at TAPI's workplaces before commencing work at TAPI's workplace and whenever there is a change in the scope and/or conditions of work that has not been the subject of notification in writing. The relevant senior employees of the Partner and TAPI are designated to ensure the performance of this obligation.
- 11. TAPI commits to provide the Partner's employees or other persons carrying out activities for the Partner at TAPI's workplaces with appropriate and adequate information and instructions on occupational health and safety and on the measures taken, in particular on firefighting, first aid and evacuation in the event of an emergency, prior to their commencement.
- 12. The Partner commits to inform the relevant TAPI senior staff in writing of all persons who will be performing work for the Partner at the TAPI site at least 1 day prior to the commencement of their activities at the TAPI site. The Partner commits to ensure that persons who will be performing work for the Partner do not enter workplaces other than those where they have been assigned to work and report to the relevant TAPI Operations Manager, or, in their absence, to the Foreman, in the absence of the Foreman to the Technologist and in the absence of the Technologist to the Shift Leader prior to entering those workplaces.
- 13. The Partner commits to ensure that all persons performing activities for the Partner at TAPI sites are trained in the relevant internal TAPI regulations in the field of OSH, Fire Protection and Environmental Protection, which have been handed over to the Partner by TAPI in a documented manner.
- 14. Access to premises where registered substances and precursors of narcotic substances are handled is governed by the internal regulation OJ\TAPI\OAO\078 Guidelines for the security and protection in TAPI in the current version, which the Partner commits to comply with.
- 15. Most of the production and storage areas are secured by controlled entry of persons by means of an identification card. If the facility in which the TAPI site is located is equipped with controlled access, persons performing activities for the Partner are required to use this system in accordance with the applicable internal regulations which the Partner has been acquainted with in a documented manner. All production and storage areas are subject to **Good Manufacturing Practice**. Most of the pharmaceutical production areas and part of the chemical production areas fall under the **controlled premises** regime, mainly in terms of environmental cleanliness, but also in terms of restricting access exclusively only to authorized and approved persons (**controlled area**).
- 16. Persons performing operational maintenance activities and/or repairs for the Partner at TAPI work sites must be provided with and use personal protective equipment provided by the Partner, taking into account the risks of the work activities performed and the nature of the workplace (for example, work clothes, safety shoes, safety glasses, welding hood, welding clothes, welding gloves, safety gloves, safety helmet, earplugs or earmuffs and quarter masks). They will use safety glasses and hard hats when performing these activities in the production and storage areas of chemical plants. Persons performing operational maintenance and repair activities for the Partner at TAPI sites in controlled areas (from a GMP perspective) will be provided with special personal protective equipment by TAPI.
- 17. Most chemical production areas, a significant part of pharmaceutical production areas and a significant part of storage areas fall into the category of **explosion hazardous areas**. The Partner shall ensure that persons performing activities for the Partner in TAPI explosion hazardous workplaces are provided **by the Partner** with and use special tools, devices and protective equipment designed and approved for work in explosion hazardous environments according to the type of zone, explosion group and temperature class of the workplace. Protective equipment designed and approved for work in explosive atmospheres means, in particular, anti-static clothing, anti-static, safety shoes (i.e. with safety steel toe caps), fully enclosed shoes, goggles and safety helmet. This protective equipment must be inspected by the Partner at least once a month in a documented way.
- 18. The Partner declares that they are professionally competent to comply with the applicable requirements and principles of technical standards and generally binding legal regulations necessary for the safe operation of activities in hazardous areas.
- 19. Any changes in the field of mechanical installations compared to the existing state will be documented by

the Partner in accordance with the requirements of generally binding legal regulations and technical standards.

- 20. Any changes in the electrical and MaR area will always be approved by the person responsible for the operation of electrical equipment at TAPI prior to implementation. Appropriate documentation will always be prepared for these modifications to the agreed extent, including compliance with the requirements of generally binding legal regulations and technical standards.
- 21. Where the Partner will be carrying out work at TAPI sites, which are laboratories, the Partner must ensure that those carrying out activities for the Partner wear work clothing and safety glasses at least.
- 22. In the event that the Partner performs construction or assembly activities at TAPI sites, the Partner must ensure that persons performing activities for the Partner wear at least work clothes, safety shoes and a safety helmet.
- 23. In the event that the Partner's work at TAPI workplaces includes work at heights requiring the use of personal protective fall-arrest equipment, the Partner commits to ensure that persons performing activities for the Partner use at least the appropriate personal protective equipment for work at heights (at least a fall-arrest harness according to the CSN EN 361 standard and a protective helmet for work at heights with a chin strap) and have valid training (at least once a year).
- 24. The Partner commits to ensure that persons carrying out activities for the Partner record times in the "Records of time spent in controlled zones" when entering and leaving a controlled zone.
- 25. The Partner commits to ensure that persons performing activities for the Partner at TAPI sites will not, with the exception of emergency work that cannot be delayed and must be carried out without delay in order to avert the emergency, carry out work that has not been agreed in advance with the Production Manager and the Maintenance Coordinator (Mechanic) of the relevant TAPI Centre and which is not the subject of the contract or order.
- 26. The Partner commits to ensure that persons carrying out activities for the Partner at TAPI sites do not use TAPI-owned equipment and tools to carry out their activities, unless otherwise expressly agreed in advance by an authorised TAPI employee.
 - Where persons performing activities for the Partner need to use TAPI machinery, equipment or techniques, they must be trained in the instructions for its use. On receipt of such equipment, the relevant person carrying out the activities for the Partner must check the technical condition and the valid revision of the equipment. In the event that the equipment is not in good condition, or the inspection is not valid, the person carrying out the activities for the Partner will not accept the equipment for use.
- 27. The Partner commits to ensure that all machinery, equipment, devices, tools, transport and handling equipment used at TAPI workplaces have valid inspections, checks, service inspections and are in proper technical condition.
- 28. The Partner shall ensure that persons performing activities for the Partner do not commence work at heights, work in confined spaces, lifting operations, pipeline disconnection, excavation works, work in areas with a risk of explosion, at TAPI workplaces prior to having their people provided with the relevant permits, including signatures by the relevant competent TAPI personnel, and prior to having the record of familiarization with the safety precautions specified in the corresponding permit or work order in accordance with the applicable TAPI regulations.
 - The maintenance coordinator (mechanic) of the relevant TAPI cost-centre prepares the appropriate form and ensures their signature and that of the relevant operations manager or their delegated employee and forwards the form to the designated person carrying out the activities for the Partner for processing. Work requiring the above permits will be assigned to TAPI only on the morning shift, except for emergency work that cannot be delayed.
- 29. The Partner commits to ensure that persons performing work with open flames for the Partner at the TAPI workplace carry out such work in accordance with the Measures of the TAPI Executives Organisational Fire Safety Measures in the current version and the Measures of the TAPI Executives Open Fire Work in the current version, including training in accordance with these Measures of the Executives.
- 30. The Partner shall not commence maintenance of the equipment unless the equipment has been safely

- shut down and locked using the LOTO safety features in accordance with the OJ\TAPI\BOZP\040 OSH MEASURES FOR THE TIME OF MAINTENANCE AND DOWNTIME OF EQUIPMENT in the current version. The Partner will be equipped with their own padlocks meeting the requirements of this measure.
- 31. The Partner commits to inform TAPI immediately should any accident occur to a person performing activities for the Partner at the TAPI workplace or to another person who was present at the TAPI workplace with the Partner's knowledge, and to cooperate in clarifying the causes and circumstances of the accident.
- 32. TAPI commits to provide the Partner with updated waste management instructions and the Partner commits to ensure that the waste is managed in accordance with the instructions provided; the same applies to their subcontractors.
- 33. Waste generated by the Partner's operations at TAPI facilities remains the property of TAPI unless otherwise provided for in the contract or purchase order.
- 34. The disposal of waste generated during their own activities shall be arranged by the Partner through an authorised waste recovery or disposal person. In this case, the Partner is considered to be a waste producer according to the current Waste Act.
- 35. The Partner acknowledges that any person on the premises of the plant in which a TAPI workplace is located (hereinafter referred to as the "plant premises") may be subjected to an alcohol or other drug test at any time while entering or leaving the plant premises or while present on the plant premises. In the event that a person requested to take an alcohol or drug test within the premises refuses to do so based on the direction of the relevant TAPI Manager or Security Officer, TAPI shall have the right to remove such person from the premises and not allow their further entry. This shall not affect any claim by TAPI arising from a late delivery of the contracted work by the Partner.
- 36. In the event of any violation of no smoking, no alcohol or abuse of other addictive substances at all workplaces and on the premises of the Plant or in the event of entering the Plant premises under their influence, the persons performing activities for the Partner or persons in a contractual relationship to the Partner (hereinafter referred to as "the **Partner's Persons**") shall be denied further access to the Plant premises and the Partner shall be obliged to pay to TAPI a contractual fine of CZK 10,000.00 for each such violation.
- 37. The Parties agree that in the event of a breach of the principles of occupational health and safety by the Partner's person on the premises of the plant (e.g. failure to wear PPE according to the risks of the work activities performed or the nature of the workplace), where this action endangers only the Partner's person and the amount of the fine is not set out in the table below, the Partner commits to pay TAPI a contractual fine of CZK 5,000.00 for each such breach of their obligation.
- 38. The Parties agree that in case of repeated violation of no smoking, no alcohol, no abuse of other addictive substances, a case of serious violation of OSH, Fire Protection, Major accident prevention and Environmental Protection regulations, which endangers the environment, property of TAPI or their employees or other persons, or repeated violation of the principles of occupational health and safety protection, where such conduct endangers only the person of the Partner, the above-mentioned fines will be applied in double the amount and the person of the Partner will be denied further access to the premises of the plant.
- 39. The Parties agree that in the event of a proven violation of the OSH, Fire and/or Environmental Protection principles specified in the table below, the Partner commits to pay to TAPI a contractual penalty for each individual violation (i.e. for each person of the Partner who violates the respective obligation of the Partner) in the amount set out in the following table.

	Penalty Scheme - Type of infringement					
1	Entering a workplace other than the one were assigned to work and without any prior knowledge of the head of the workplace	CZK 5,000.00				
2	Starting work at the Company's workplaces without prior consultation and consent of the Company's employee	CZK 5,000.00				

Failure to use prescribed personal protective equipment (e.g. protective helmet for construction work, welding clothing for welding, safety goggles or shield for grinding, cutting, etc.)	CZK 1,000.00 – CZK 5,000.00		
Commencement of work at heights, work in confined spaces, lifting operations, excavation work, work in explosive atmospheres, work with open flames on company workplaces before the relevant permit or work order has been signed for the employee of the external company	CZK 10,000.00		
Failure to comply with the measures set out in the permit for hazardous work (work at height, work in confined spaces, lifting work, excavation works, work in an explosive atmosphere, work with open flames).	CZK 5,000.00		
Smoking or moving around the workplace under the influence of alcohol or other addictive substances	CZK 10,000.00		
Failure to keep records of entries and exits to and from the controlled zone workplace in the "Record of stay in controlled zones" book	CZK 1,000.00		
Entering workplaces with explosion hazards without anti-static clothing and anti-static footwear or with a mobile phone that is not designed for these areas	CZK 3,000.00		
Use of tools, appliances and instruments not designed and approved for the relevant explosive atmosphere in workplaces with explosion hazards	CZK 5,000.00		
Violation of regulations and regulations in the field of occupational health and safety and measures imposed in the permit to work with fire with the potential to cause a fire or serious accident	CZK 10,000.00		
Violation of regulations and regulations in the field of safety and security	CZK 5,000.00		
Unfencing of excavations, securing of excavations	CZK 2,000.00		
Use of non-compliant ladders (damaged, wooden, not complying with the National Regulation No. 362/2005 Coll.)	CZK 2,000.00		
Use of damaged or inadequate electrical equipment, equipment, extension cords, etc.	CZK 2,000.00		
Failure to cover openings, failure to cover openings against falling objects from height	CZK 2,000.00		
Work gangways not compliant with OSH (no handrails, trench rails, insufficient width, etc.)	CZK 2,000.00		
Use of structures that are not intended for climbing (formwork, shoring, etc.)	CZK 2,000.00		
Working at heights without fall protection (collective protection, guardrails, nets, personal fall protection equipment, etc.)	CZK 10,000.00		
Poor tying and transport of loads	CZK 4,000.00		
Use of damaged lashings	CZK 4,000.00		
Possession of alcohol and other addictive substances	CZK 2,000.00		
Use of the plant site to store materials or waste without a permit.	CZK 5,000.00		
Failure to sort waste according to the instructions given to them, failure to label waste or use TAPI containers to collect waste	CZK 5,000.00		
Keeping dangerous chemicals or mixtures in packaging not intended for that purpose and not labelled with the name and safety data.	CZK 3,000.00		
Damage to construction site fencing, unauthorized entry to the construction site	CZK 2,000.00		
Movement in the workplace without an identification card	CZK 1,000.00		
Use of private el. appliances on site	CZK 2,000.00		
Working at heights on inadequately secured scaffolding	CZK 4,000.00		
Work in an unlined trench	CZK 5,000.00		
Violation of road traffic rules	CZK 2,000.00 – CZK 10,000.00		
Failure to comply with the requirements of the accompanying documentation (operating instructions, etc.)	CZK 1,000.00 – CZK 5,000.00		
	construction work, welding clothing for welding, safety goggles or shield for grinding, cutting, etc.) Commencement of work at heights, work in confined spaces, lifting operations, excavation work, work in explosive atmospheres, work with open flames on company workplaces before the relevant permit or work order has been signed for the employee of the external company. Failure to comply with the measures set out in the permit for hazardous work (work at height, work in confined spaces, lifting work, excavation works, work in an explosive atmosphere, work with open flames). Smoking or moving around the workplace under the influence of alcohol or other addictive substances. Failure to keep records of entries and exits to and from the controlled zone workplace in the "Record of stay in controlled zones" book. Entering workplaces with explosion hazards without anti-static clothing and anti-static footwar or with a mobile phone that is not designed for these areas. Use of tools, appliances and instruments not designed and approved for the relevant explosive atmosphere in workplaces with explosion hazards. Violation of regulations and regulations in the field of occupational health and safety and measures imposed in the permit to work with fire with the potential to cause a fire or serious accident. Violation of regulations and regulations in the field of safety and security. Unfencing of excavations, securing of excavations. Use of non-compliant ladders (damaged, wooden, not complying with the National Regulation No. 362/2005 Coll.) Use of damaged or inadequate electrical equipment, equipment, extension cords, etc. Failure to cover openings, failure to cover openings against falling objects from height. Work gangways not compliant with OSH (no handrails, trench rails, insufficient width, etc.). Use of structures that are not intended for climbing (formwork, shoring, etc.) Working at heights without fall protection (collective protection, guardrails, nets, personal fall protection equipment, etc.) Poo		

- 40. The Partner acknowledges and agrees that the application of a fine or failure to allow a person performing activities for the Partner to enter the Plant premises shall not affect any claim by TAPI arising from any delay in the work and delivery of work by the Partner.
- 41. The Partner is required to provide training on the GMP principles to all persons carrying out activities for the Partner who shall perform, be it occasionally only, activities at TAPI sites, and keep written records as evidence of completion of the training by them where such training shall be arranged by TAPI upon agreement.
 - Non-compliance with the GMP Policy will be sanctioned, including compensation of any damages incurred in connection with such non-compliance.
- 42. The training of employees of external companies and other persons performing work activities in the Company's facilities (self-employed individuals, etc.) before entering the Company's facilities is held in accordance with OJ\TAPI\BOZP\017 in the current version of the "Occupational Environment, Health and Safety Directive for the performance of activities by external companies", which includes the provision of information on the Company's OH&S system. The evidence of the training completion is the attendance sheet with the names of the trained persons. If an employee of an external company has been provided with permanent access to the Company, they must complete their training at a frequency of once per year by passing a test to demonstrate his/her knowledge in the relevant field.

The present terms and conditions of Occupational Health and Safety, Fire Protection and Environmental Protection shall enter into effect on the date stated at the heading of these terms and conditions. These terms and conditions of Occupational Health and Safety, Fire Protection and Environmental Protection shall cease to be effective at the moment when new terms and conditions are issued by TAPI Czech Industries s.r.o.
